Catalogue of Motors Produced at Sachsenwerk, Niedersedlitz (SAG Kabel); 29 photo-
stats; German; date of catalogue: Jan 1950.

Subject material is an illustrated catalogue of electric motors produced by the Elektromaschinenbau Sachsenwerk, Niedersedlitz, Saxonia (SAG Kabel). The catalogue covers three-phase alternating-current motors of standard design for voltages up to 500 volt, 50 cycles, and direct-current crane motors for 220 volt. The former include squirrel-cage rotor type motors and slip-ring rotor type motors, both those for continuous and for intermittent operation. Technical specifications sufficient to allow consumer to make proper choice of motors are given with each type.
